

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:

Jeff S. EDER

Application No. 10/717,026

Group Art Unit: 2129

Filed: November 19, 2003

Examiner: Michael Holmes

For: AN ENTITY CENTRIC COMPUTER SYSTEM

**LETTER**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

The Assignee recently discovered a clerical error in the appeal brief for the above referenced application filed on 2 December 2007. The appeal brief incorrectly listed an appeal for application 11/262,146 as a related appeal. Application 11/262,146 was not under appeal and has not been appealed. Application 11/262,146 was apparently listed because of the large number of pending claims for context search.

The appeal brief should have listed U.S. Patent application 11/094,171 as a related appeal as the Assignee planned to appeal that application and has in fact filed an appeal. Out of an abundance of caution, the Assignee is attaching a listing of the allowed claims for application 11/094,171 and a copy of the appeal brief filed for application 11/094,171 to correct this clerical error. Although the claim rejections do not appear to pass a "reasonable examiner" test for disclosure the last Office Action for 11/094,171 is also attached hereto. This same information is being disclosed for the continuation application 11/279,104.

Respectfully submitted,

/B.J. Bennett/
